

The Wee Talk Campaign provides language promotion presentations and coaching to professionals who will deliver language promotion messaging parents of infants and toddlers. The Wee Talk Facilitator provides profession specific presentations and follow-up community wide. This grant was provided to Helping People Succeed through the Children's Services Council of Martin County. Helping People Succeed is also the lead on *The Language & Literacy Connection* in Martin County, and we couldn't be more excited about impacting awareness and behavioral change in this community by equipping professionals to empower parents to utilize language rich interaction with their young children.
